

Glendenning App With Live Leaderboard

*Available for **free** on all Android and iPhones*

One of the great features of this app is the Live Leaderboard feature that lets everyone playing in an event see the scores of everyone else using the app. Wouldn't it be nice to know exactly where you or one of your friends stand at any given point in the tournament. Wouldn't it be nice to sit on the balcony and know exactly what is happening in the leaders group as they head down the home stretch?

To use this feature just follow the instructions below. The process only takes a minute and is very simple to set up and use.

To install app: Search Glendenning Golf in the app store for your phone. Once you find it just click download or install. That's it for the installation process.

To setup your profile: Once your app is installed it will either automatically open or require you to click the icon to start. Once open do the following to setup your profile.

- Click the Get Started button on the bottom of the page.
- Click Start/Continue Round/GPS
- Type in your First and Last Name
- Select your Gender (Male, in case you don't know)
- Select Blue Tee
- Select your Current Handicap
- Type in Your E-mail.
- Hit Continue

Keeping Score: Once the scorecard opens you have the option of adding other people in your foursome if they are not keeping their own score on the app. To do so click the icon of the golfers head and the + sign under the scorecard. Follow the same process as you did to set up your own profile. Touch the box for the hole you are entering and add the score for each player. The scorecard will progress to the next hole where you repeat the process.

View Leaderboard: Once you have **posted a score to a hole**, you can join the Leaderboard of the Men's League Championship – Day 1. Click on the Leaders icon, select Glendenning as the course, then select MENS LEAGUE CHAMPIONSHIP DAY 1. You will then see a small green box to JOIN. Once selected you have to highlight the check boxes of everyone you want to add. You are now able to see the scores of everyone else for this round by simply clicking the Leaders Icon anytime during your round. You can also switch between gross and net scores if you wish to see how you stand in relation to the field.

Test Version: If you want to test the app use the GLENDENNING TEST SAMPLE tournament.
