

Jason Stagg
CPGA Golf Professional
Glendenning Golf
St. John's, NL

Jason has loved and participated in many sports since a very young age. Whether it was hockey, soccer, swimming or golf, Jason's ability to understand the necessary skill sets and techniques of a particular sport helped him to excel at everything he played.

His involvement in golf began at age 21 when he enrolled in the Holland College Golf School in PEI. His high handicap and limited golf experience presented a challenge, but his eagerness to learn and innate talent paid off quickly as his golf instructors placed him on the College Golf Varsity team after his first year. Even today, instructors at the College reference Jason as a prime example of what can be accomplished with interest, hard work and perseverance.

After completion of the three year Golf Program at Holland College, Jason accepted a position at the Canadian Golf Academy in PEI. During his time there he mentored under Anne Chouinard, one of Canada's most respected and well known golf instructors. Working and learning with Ann for several years provided an excellent opportunity for Jason to improve not only his own skill level but also his teaching skills and techniques.

While attending Humber College, Jason was also selected as the CN Future Links co-ordinator, where he travelled around PEI helping grow the game of golf by providing golf clinics to children. During the off season he was employed at a Golf Resort in Jamaica, where he was involved in running a number of instructional programs.

As the Assistant Pro at Glendenning, Jason's abilities and experience will be a great asset to an already well-established golf program.
