46			12/12.5
47			13/13.5

Conventional shoes fit across your feet at the toes, restricting the way your toes spread as you walk. ECCO's Freedom Fit is different; it offers a roomy toe box and fits more narrowly from heel to instep, suitable for most widths. Toes spread naturally to support your weight and foster a more comfortable walking experience. Feet of nearly all widths feel good in ECCO, comfort straight from the box.
